

Session I

BRAINSTORMING IDEAS

Use information gathered by your group to begin brainstorming ideas and solutions. Remember there are no bad ideas. Think of as many ideas and possible solutions as you can. Write down every idea you come up with, no matter how silly it may seem at the time. Remember, nobody criticizes anyone else's ideas! Here's an example to get you started.

Idea

There is no fresh produce nearby. We live in the middle of a food desert.

Plant community gardens

SOLUTION

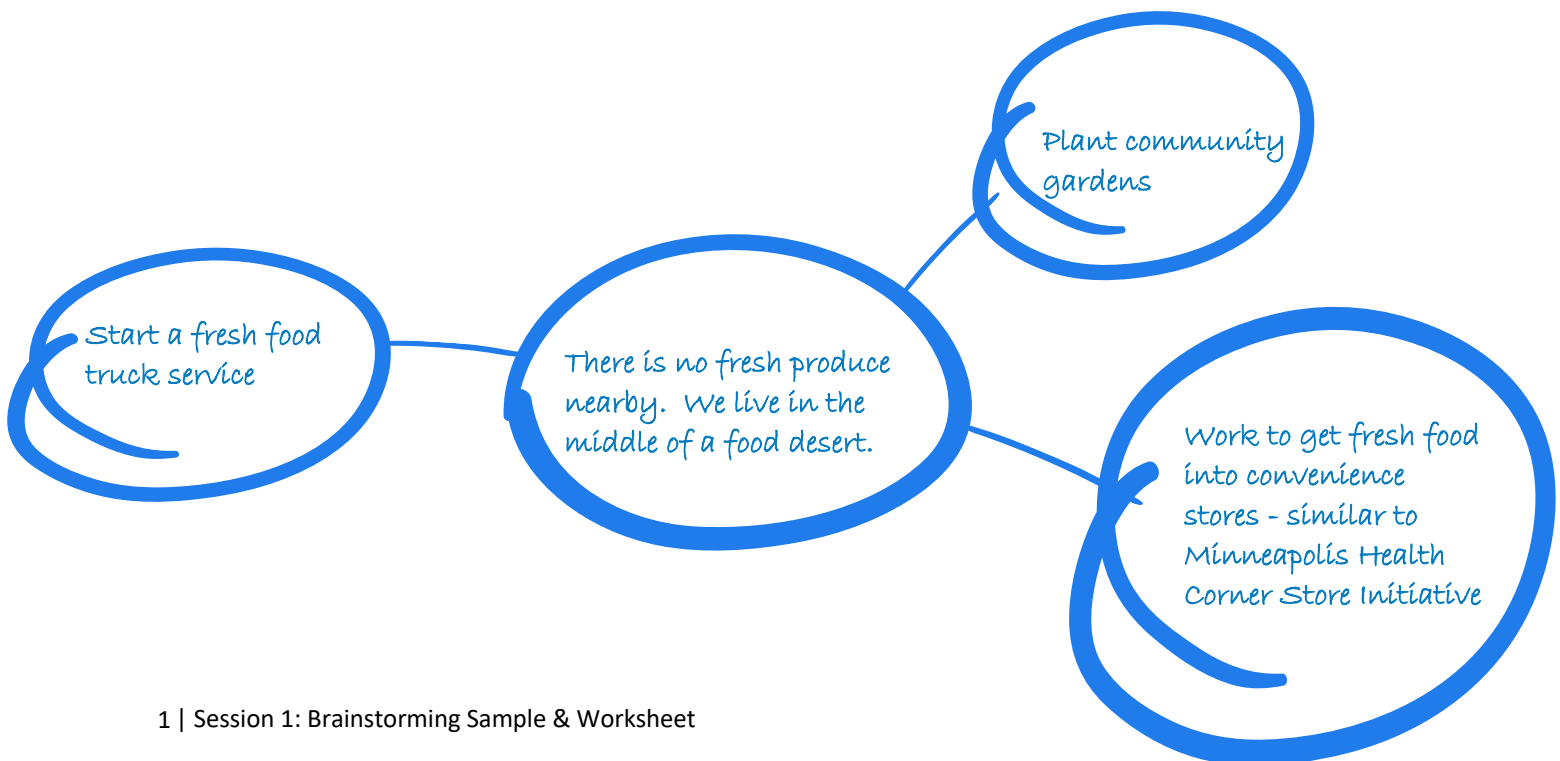

Start a fresh food truck service

SOLUTION

Work to get fresh food into convenience stores - similar to Minneapolis Health Corner Store Initiative

SOLUTION

Brainstorming activities can take many shapes. You can use the template here or create your own. One way to draw your own includes putting your idea in a big circle in the middle and lines to possible solutions in smaller circles surrounding it like the one below.
